MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2002

This discussion and analysis of Lafourche Parish Recreation District No. 11's (the District) financial performance provides an overview of the financial activities for the fiscal year ended December 31, 2002. Please read it in conjunction with the basic financial statements and the accompanying notes to the financial statements.

FINANCIAL HIGHLIGHTS

The basic financial statements provide these insights into the results of this year's operations:

- As a result of this year's operations, total net assets were \$425,772. Net assets increased by \$27,760 from the previous year of \$398,012.
- Total net assets are comprised of the following:
 - (1) Invested in capital assets of \$315,920 included property and equipment, net of accumulated depreciation – the net book value and net of related debt.
 - (2) Restricted net assets - restricted by constraints imposed from outside such as grantors, laws or regulations of \$90,035.
 - (3) Unrestricted net assets of \$19,817 that represent the portion available to maintain continuing obligations to citizens and creditors.
- The governmental funds reported total ending fund balance – all considered unreserved of \$109,852. Fund balance for governmental activities decreased by \$9,736 from the prior year - \$119,588.
- Total spending for all recreational activities was \$93,495 and were offset by charges for services of \$6,623, for a net expense for recreational programs of \$86,872. General revenues of \$114,632 were used to offset the shortfall.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Government-Wide Financial Statements (GWFS) - The Statement of Net Assets and the Statement of Activities provide information about the financial activities as a whole and present a longer-term view of the finances. Fund Financial Statements (FFS) – The Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances tell how these services were financed in the short term as well as what remains for future spending. Fund Financial Statements also report the operations in more detail than the Government-Wide Statements by providing information about the most significant funds.

Government-Wide Financial Statements (GWFS)

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question.

LAFOURCHE PARISH RECREATION DISTRICT No. 11
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2002

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the net assets and changes in them. You can think of the net assets—the difference between assets and liabilities—as one way to measure the financial health, or financial position. Over time, increases or decreases in the net assets are one indicator of whether its financial health is improving or deteriorating.

The Statement of Net Assets and the Statement of Activities reports only one type of activity - governmental activities. Most of the basic recreational services are reported as this type.

Fund Financial Statements (FFS)

The Fund Financial Statements provide detailed information about the most significant funds—not the District's operations as a whole. Some funds are required to be established by State laws. Other funds are established to help control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as the Sinking Fund).

The District utilizes only the governmental type of fund with the following accounting approach. Most of the basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliations at the bottom and following the fund financial statements.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (GWFS)

As a result of this year's operations, net assets increased by \$27,760. The increase was attributed to an increase from prior year of ad valorem taxes collected. Unrestricted net assets—the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements—absorbed most of the increase this year. The balance in net assets - \$425,772 represents the accumulated results of all past years' operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2002

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (FFS)

The District utilizes funds to control and manage money for particular purposes. Reviewing individual funds provides the information to determine if an entity is being accountable for the resources provided and may also give you more insight into the overall financial health.

The governmental funds reported a combined fund balance of \$109,852. This reflects a decrease of \$9,736 from last year. This decrease is primarily attributed to the amount of equipment purchased for the year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget for the General Fund was revised during the year. Authorized budget amendments were approved as follows:

Original Budgeted Revenues	\$ 52,650
Amendments were made for:	
Increased Ad Valorem Taxes	7,350
Total revenue amendments	7,350
Amended Budgeted Revenues	\$60,000

Original Budgeted Expenditures	\$64,000
Amendments were made for:	
Decreased Property & equipment maintenance	(5,150)
Increased Capital Expenditures	28,150
Total expenditure amendments	23,000
Amended Budgeted Expenditures	\$ 87,000

CAPITAL ASSETS

The District's investment in capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2002 and 2001 was \$595,920 and 593,424, respectively.

This year there was \$38,725 of additions. The depreciation taken on these assets was \$36,228. More detailed information about the District's capital assets is presented in Note 6 to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2002

LONG-TERM DEBT

At year-end, the District had \$280,000 in general obligations bonds outstanding. The District retired \$35,000 in principal on these bonds during the year. The District does not plan on issuing any more new debt to finance major capital improvements, but will be reviewing bond market conditions for financing future year capital expenditures. More detailed information about long-term liabilities is presented in Note 7 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Among the factors considered in compiling the 2003 budget were:

1. changes in millage rates for the next fiscal year
2. new laws and regulations enacted that would apply to the upcoming year
3. new revenue sources or expenditures not previously encountered.

Highlights of next year's adopted budget for the general fund include:

Projected Beginning Balance	\$19,817
Anticipated Income for 2003	56,000
Anticipated Expenditures for 2003	58,000
Excess Expenditures over Revenues	(2,000)
Projected Ending Balance	\$17,817

Net change in fund balances - total governmental funds (fund financial statements) \$ (9,736)

Amounts reported for *governmental activities* in the statement of activities
(government-wide financial statements) are different because:

Governmental funds report capital outlays as expenditures in the individual fund.
Governmental activities report depreciation expense to allocate the cost of those
capital assets over the estimated useful lives of the asset.

In the current year, these amounts consist of:

Capital Asset purchases	\$	37,625	
Donated Assets		1,100	
Depreciation expense		<u>(36,228)</u>	
Excess of capital outlay over depreciation expense			2,496

Repayment of long-term debt is reported as an expenditure in governmental funds,
but the repayment reduces long-term liabilities in the statement of net assets.

Change in net assets of governmental activities \$ 27,760

LAFOURCHE PARISH RECREATION DISTRICT No. 11

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2002

The Lafourche Parish Recreation District No. 11 (the District) operates under provisions of the Louisiana Revised Statutes and was created by ordinance 17-19 of the Lafourche Parish Council on October 28, 1996. The District provides the facilities, equipment, program, and finances to conduct recreational activities in the respective District boundaries. The District has all the rights and powers and privileges granted by and conferred by the Constitution and Statutes of the State of Louisiana, including the right to incur debt, issue bonds and levy taxes.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Lafourche Parish Recreation District No. 11 (the District) conform to generally accepted accounting principles as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of certain significant accounting policies:

A. Reporting Entity

As the governing authority of the parish, for reporting purposes, the Lafourche Parish Council is the financial reporting entity for Lafourche Parish. The Governmental Accounting Standards Board established criteria for determining which component units should be considered part of the Lafourche Parish Council for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. Based on criterion applied, the District is a component unit of the Lafourche Parish Council. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Lafourche Parish Council, the general government services provided by the Council, or the other governmental units that comprise the financial reporting entity.

B. Basic Financial Statements – Basis of Presentation

Government-Wide Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental type activities.

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2002

Note 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basic Financial Statements – Basis of Presentation (Continued)

All of the District's administrative services are classified as governmental activities.

In the government-wide Statement of Net Assets, the governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts—invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and activities. These functions are also supported by general government revenues (interest earned.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (interest earned, etc). This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

FUND FINANCIAL STATEMENTS

The financial transactions of the District Attorney are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

Governmental Funds

Governmental Funds are those through which the governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

LAFOURCHE PARISH RECREATION DISTRICT No. 11

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2002

Note 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Governmental Funds of the District are as follows:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those that are required to be accounted for in another fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of general long-term obligation principal, interest and related costs.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economical resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The governmental fund financial statements are accounted for using a current financial resources measurement focus. With this measurement focus only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used by the governmental fund financial statements. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The governmental funds use the following practices in recording revenues and expenditures:

- Interest income is recorded when received by the District.
- Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgets

The District complies with the "Louisiana Local Government Budget Act" and henceforth, budgets are adopted for its governmental funds on a modified accrual basis that is consistent with generally accepted accounting principles. Annual budgets are prepared by the Secretary of the Board and presented to the Board for adoption no later than 15 days prior to the beginning of the fiscal year. Budgets are adopted for the fiscal year and lapse at a year-end. The budget is amended by supplemental appropriations as needed to during the year to comply with state law.

E. Encumbrances

The District does not utilize encumbrance accounting; under which purchase orders, contracts, and other commitments are recorded in the District's books.

F. Cash

Cash includes amounts in demand deposits, interest-bearing deposits, and money market accounts. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. Investments are stated at cost.

State law also requires that deposits of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished, as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

G. Capital Assets

Capital assets, which include property, plant, and equipment are reported in the government-wide financial statements. Capital assets are capitalized at historical cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is not material and therefore not included as part of the capitalized value of the assets constructed.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and building improvements	20-40 years
Furniture and fixtures	5 years
Equipment	10-20 years

H. Long Term Debt

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other

financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

I. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or legally segregated by outside parties for a specific future use.

J. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 DEPOSITS

At December 31, 2002, the District had book and bank balances (all deposits) of \$109,852 and \$109,964 respectively. These deposits are stated at cost, which approximates market. Under state law, federal deposit insurance or the pledge of securities owned by the fiscal agent bank must secure these deposits (or the resulting bank balances). The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. The District's deposits are secured from risk by \$100,000 federal deposit insurance. At December 31, 2002 the District did not have adequate securities pledged to secure all deposits.

Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:111119 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand.

LAFOURCHE PARISH RECREATION DISTRICT No. 11

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2002

Note 3 AD VALOREM TAXES

Property taxes are levied each December 1 on the assessed value listed as of the prior January 1 for all real property, merchandise, and moveable property located in the Parish. Assessed values are established by the Lafourche Parish Assessor's Office and the State Tax Commission at the percentages of actual value as specified by Louisiana law.

A reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed for the list of January 1, 2000. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2001 for which the revenue is shown in 2002 was 5.8 mills assessed valuation on property within Lafourche Parish Recreation District No. 11 for the purpose of maintaining and operating the facilities and programs, and 6.5 mills for the purpose of payment of general long term debt principal, interest, and related costs for the District.

The Lafourche Parish Sheriff's Office collects the taxes levied and remits the taxes collected to the District. The District uses the revenue from ad valorem taxes collected to finance the next year's operations; therefore all taxes levied in 2001 are recognized as deferred in the current year's financial statements.

Note 4 COMPENSATION OF BOARD MEMBERS

No compensation was paid to Board Members during the year ended December 31, 2002.

Note 5 DUE FROM OTHER GOVERNMENTAL UNITS

The amounts due from other governmental units consisted of December 2002 ad valorem tax collections due from the Lafourche Parish Sheriff to be remitted to the District in January 2003.

AGREED-UPON PROCEDURES SECTION

STAGNI & COMPANY, LLC

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners
Lafourche Parish Recreation District No. 11

We have performed the procedures included in the *Louisiana Government Audit Guide* and enumerated below, which were agreed to by the management of Lafourche Parish Recreation District No. 11, (the District) and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating the management's assertions about the District's compliance with certain laws and regulations during the year ended December 31, 2002 included in the accompanying *Louisiana Attestation Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our applied procedures, together with any observation or findings, follow:

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

No expenditures were made during the year for materials and supplies exceeding \$15,000, and no contracts were entered into for public works exceeding \$100,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

There were no employees of the District for the period under review.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

There were no employees of the District for the period under review.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the legally adopted original and amended budgets.

6. Trace the budget adoption and amendments to the minute book.

We traced the adoption of the original budget to the minutes held on December 31, 2001 that indicated that the commissioners of the Lafourche Parish Recreation District No. 11 by a unanimous vote had adopted the budget. The budget law requires that the proposed budget be submitted to the governing authority at least 15 days prior to the beginning of the budget year (LSA-RS 39:1305). The District did submit its budget in the proper time period to comply with this section of the budget law.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues and expenditures exceed budgeted amounts by more than 5%.

We compared the revenues and expenditures of the final budget (original) to actual revenues and expenditures. Actual revenues and expenses were not under budgeted by more than 5% for the general fund or debt service fund.

Accounting and Reporting

7. Randomly select 6 disbursements made during the period under examination and:

(a) trace payments to supporting documentation as to proper amount and payee,;

We examined the supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

(b) determine if payments were properly coded to the correct fund and general ledger account, and

Six of the payments were properly coded to the correct fund and general ledger account.

(c) determine whether payments received approval from proper authorities.

Inspection of documentation supporting each of the six selected disbursements indicated the proper approvals

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

The District is only required to post a notice of each meeting and the accompanying agenda on the door of the District's office building. It was noted by inquiry during the year that agendas for meetings were posted or advertised on the door as required.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected all bank deposit slips for the period under examination and noted no deposits that appeared to be proceeds of bank loans, bonds, or like indebtedness

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees that may constitute bonuses, advance, or gifts.

A review of the minutes of the District for the year indicated no payments of the above type noted. The District had no payroll records or employees for the year and noted no instances that would indicate payments to employees that may constitute bonuses, advances, or gifts.

We were not engaged to, and did not perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
